The graphics are simply horrible, and I have to put up with getting a screenshot everytime I hit space.. Decent graphics but mostly this is a frustrating plant vs zombies clone with completely unfair challenges and tedious gameplay. I will keep playing to see if it gets any better. I like the anti-deforestation theme but some of these animals don't even live in the environment they're protecting. That's a minor nitpick though.. Funny and addictive.

The only criticism I can lay is that the game crashed and lost all my progress.

Send waves of pals to get garbage for the flumf, build stuff.

Send more guys. Repeat.

Awesome.

<https://youtu.be/vr5ufS12Ebu0>. DO NOT BUY THIS GAME

[Cool idea, has potential, but it's unfinished and abandoned.](#)

[Normally I hate writing reviews on games no matter what but here I go.](#)

[First time I saw this game. It reminded me of Overgrowth. Waited for a sale and bought it for 90% off. I bought the game along with a few other games and forgot to play it. 4 or so months later, the game hadn't received any updates since I bought it. Decided to give it a try.](#)

[Checked out the server list. It was empty even though it was the active hours for europeans. Created my own server, dropped me near a beach with no tutorials or anything that points you towards what is going on or what you're supposed to do. Walked a few minutes towards a town. view distance and grass density really hurts your eyes after few steps. found out there is an inventory and I have an axe and a pickaxe. got closer to town. skeletons. seems like I can take a few of them down. can't seem to attack with left click. apparently you have to draw your tool/weapon first. ended up dying after my first swing because the game doesn't let you move while attacking. Waiting for respawn. awkwardly watching skeletons. for some reason you need to press escape and click respawn to respawn. could have told me that before i waited 30 seconds for a respawn. Chopped some wood. can't move while chopping wood. mined some stone and ores. can't move while mining. Ores seem to generate once per stone pile. so you have to walk for a minute just to get to another ore vein. And you need a lot of ores to get the iron armor.](#)

[After wasting about 20 minutes doing this I gave up on this game and decided to not come back until the developer announced he is not dead.](#)

[Yes, many of you will think 20 minutes is not enough to judge a game but I do not think I can spend another minute in a game that is really painful to play and completely empty multiplayer game.. I'm afraid I can't give this a rave review. The quality of the textures is comparable to an aircraft from IL2 1946 released 10 years ago. Still, the flights can be fun and challenging and at this reduced sale price it is worth adding to the hangar.](#)

good game but unfortunately my computer barely ran it and i ran into a camera problem where it flipped upside down but it is very good just need a better computer to run it. Get the soundtrack, it's worth it. Been listening to cheesy 8-bit anthems on public transport and it feels great.. Really fun game for fans of Assassins Creed and historical settings. This is my first AC since 3 and I have to say I am enjoying the direction it has went. The map is massive and there is a lot to do. The RPG elements are a good addition. I recommend getting the game on sale since they went pretty heavy on trying to get you to buy microtransactions. None of them seem necessary but I will never accept them as something to implement in a fully priced game.. A cool little "casual" -for me at least- retro game, which does not need to spend hours reading the user manual for a test run. I'm now 50 and no longer a hardcore gamer!

The two-layer battlefield is a good idea. Nice 3D-stereoscopic effect, perfect for what I was looking for: something to easily test my hardware (3D monitor with "vintage" NVIDIA 3D Vision 2 glasses; support of the Microsoft 360 controller is OK). And, oh yes, I actually noticed the sprites are 3D too! ;)

Hoping some more ambitious features will follow (at least more alien waves) but nice work anyway.. As a strategy game fan I really wanted to like this game. I completed the first campaign and somewhat enjoyed myself, although I was disappointed by the poor AI.

Then I started the second campaign and I realized how poorly the single player game is. To compensate for the poor AI the developer has decided to tilt the odds very much in favour of the AI players by giving them many more units and/or more highly valued units. In addition, the AI player is given more open territory making rapid expansion much easier.

As others have said, the way to win these scenarios is to trick the computer AI into fighting each other. I'm not interested in learning these tricks, this isn't strategy gaming.

So unfortunately, as a single player game, this game is a bust. I think multi player could be very enjoyable but I'm not interested in that.

As a single player game I would rate this as 2 out of 10. As a multi player only game, I would rate it as 7 out of 10.
